

Geometric Blocks

Step 1

Trace your chosen geometric shapes using a sharp pencil and a ruler.

Step 2

Turn the tracing paper over and trace over the lines again.

Step 3

Place your tracing paper on the white (paper) side of the 5cm² craft foam. Trace over the lines to transfer your shape outline onto the craft foam.

Step 4

Remove the tracing paper and go over the lines.

Step 5

Cut the drawn shapes out of the foam.

Peel white paper off and stick down onto the block.
